EDUCATION

Degree in computer science

Universidad Siglo 21

Mar. 2020 - Present

English

Roseland School of English

Mar. 2019 - Present

COURSES

Data Engineer

Platzi

- Automations
- Web Scraping
- Search, analysis and data cleaning

Development with Python and Django

Platzi

- MVC model
- Object-oriented programming
- Web development

SKILLS

- AWS
- Git
- Pandas
- Matplotlib
- Selenium
- Docker
- PostgreSQL
- NumPy
- Seaborn
- Django

ABOUT ME

Professional with more than two years of outstanding experience in the design, development and implementation of efficient and scalable solutions in data engineering. Specialized in ETL process automation to optimize data flow and in advanced database management, including modeling, optimization and maintenance.

EXPERIENCE

Python Developer

Freelancer.com

Oct. 2023 - Apr. 2024

- Developed scripts to analyze, clean and filter data using Pandas and Matplotlib for visualization
- Consuming APIs with Postman to access external data and generate automated reports
- Implementation of Docker environments to facilitate the execution and distribution of the developed applications

Python Developer

Experis

May. 2023 - Sep. 2023

- Development and maintenance of automated ETL processes with Python
- Data analysis with Pandas and NumPy
- Creating procedures, triggers and functions with PostgreSQL
- Advanced handling of Git and Docker

Python Developer

BB Media

Nov. 2021 - May. 2023

- Development and maintenance of scripts with Python
- Web scraping with Selenium, Playwright and APIs
- Data analysis with Pandas and NumPy
- Storing and manipulating data in databases with MongoDB
